

Contra Sept® 5880 Hand and Surface Disinfection

The disinfectant is effective against enveloped viruses (such as Corona SARS-CoV-2) and bacteria. The effectiveness is already apparent after an exposure time of 30 seconds. The 2-in-1 product can be used both as a surface disinfectant and as a hand disinfectant.

Properties

- ✓ Disinfects, cleans, protects
- ✓ Fragrance-free and without cumulative long-term active ingredients
- ✓ Good material compatibility
- ✓ Works after only 30 seconds

Instructions

Application Surface Disinfection:

Spray objects and surfaces evenly, wipe if necessary and allow to act for at least 30 seconds. Ensure complete wetting and keep the surfaces or objects moist during the entire contact time. Ensure that all visible soiling is removed before disinfection. Wiping is not necessary.

Application Hygienic Hand Disinfection:

Spray into dry hand for 2 seconds, rub into the entire palm and keep it moist for 30 seconds. Selectively treat fingertips, palms, especially thumb areas and spaces between them.

Notice

- ✓ Not suitable for acrylic glass and other alcohol-sensitive surfaces, lacquers, oiled wooden surfaces etc.
